

Classification: Energy Analyst	Position No. 6100-5837-XXX
CBID: R10	Office: Advanced Vehicle Infrastructure Office
Date Prepared: March 6, 2019	Division: Fuels and Transportation Division
KEY: (E) IS ESSENTIAL, (M) IS MARGINAL	

CONFLICT OF INTEREST STATEMENT

This position is designated under the Conflict of Interest Code: YES ☐ NO ☒

If yes, this position is responsible for making or participating in the making of governmental decisions that may potentially have a material effect on personal financial interests. The appointee is required to complete Form 700 within 30 days of appointment, which identifies pertinent personal financial information.

DUTIES AND RESPONSIBILITIES: Under the direct supervision of the Energy Resources Specialist III (Supervisory), the Energy Analyst will perform work of average difficulty in a wide variety of consultative and analytical energy assignments in alternative and renewable fuels that transform California's fuel and vehicle types to help attain the state's climate change policies. This position includes responsibility for transportation energy analyses, public presentations, and agreement management in the Hydrogen Technology and Planning Unit, Advanced Vehicle Infrastructure Office, and the Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP).

PERCENTAGE OF TIME PERFORMING DUTIES	INDICATE THE DUTIES AND RESPONSIBILITIES ASSIGNED TO THE POSITION AND THE PERCENTAGE OF TIME SPENT ON EACH. GROUP RELATED TASKS UNDER THE SAME PERCENTAGE WITH THE HIGHEST PERCENTAGE FIRST; PERCENTAGE MUST TOTAL 100%.
30%	Energy Commission Agreement Management. Assist in the development of work statements, budgets, schedules, and special terms and conditions for Energy Commission agreements, grants, and contracts. Develop and present summations of proposed Energy Commission agreements at Energy Commission Business Meetings for consideration. Oversee the tasks in the Scope of Work and confirm the receipt of deliverables. Conduct site inspections of Energy Commission projects. Collaborate with grant recipients and contractors so that all work, including data collection, final report, and invoicing, is completed within the approved agreement term. Initiate and conduct analyses to support the agreement amendments. Develop and submit agreement amendments for approval. Input agreement status into the Hydrogen Unit database. Manage an effective electronic file system for the agreements. (E)
25%	Technical Assessments of Alternative Fuels and Vehicles. Assist in conducting technical assessments of alternative fuels and vehicles that form the basis of Energy Commission ARFVTP funding solicitations. Apply technology assessment tools, including software models. Review technical proposals for Energy Commission funding. Brief the office, division, and Commission management. (E)
20%	Economic Assessments of Alternative Fuels and Vehicles. Apply economic assessment tools, including software models, to articulate the economic benefits and jobs creation in alternative transportation fuels including hydrogen and other fuels. Assess the fuel cell electric vehicle (FCEV) rollout and hydrogen demand. Provide input for policy forums such as the Integrated Energy Policy Report (IEPR) proceeding. Brief the office, division, and Commission management. (E)
20%	Environmental Assessment of Alternative Fuels and Vehicles. Apply environmental assessment tools, including software models, to report on the environmental benefits of the use of alternative and renewable fuel and vehicle technologies. Provide input to ARFVTP analyses to determine funding allocations to yield the greatest, positive environmental impacts. Provide input to policy forums such as the Integrated Energy Policy Report (IEPR) proceeding. Brief the office, division, and Commission management. (E)
5%	Perform other duties as required consistent with the specification of this classification. (M)

WORKING CONDITIONS: The working conditions include an indoor office and/or meeting room setting involving sitting, standing, and walking. The candidate must work well with people inside and outside the Energy Commission. Travel

DUTY STATEMENT

CEC-004 (Revised 01/2019)

CALIFORNIA ENERGY COMMISSION

may be required to attend workshops, hearings, and hydrogen station testing and commissioning meetings. Additional hours beyond an eight-hour workday or 40-hour workweek may be required. While performing the duties described below, the Energy Analyst will be required to work alone and in a team environment and will participate in meetings with staff, other agencies, and public and private sector interest groups.
